LANGUAGES

English C1

HOBBIES

Cyberpunk aesthetic (movies, books, architecture) Skateboarding
Travelling

PROFILE

In my free time I like to dive deeper into topics related to Data Science and Machine Learning, test its behaviours and take joy in discovering its nature. In fall/winter 20/21 semester at my university I've attended to Intro to Data Science lectures and labs, which made me even more interested in finding solutions to ML/DS problems with the help of Python and libraries/frameworks such as Pandas, Numpy, Scikit-Learn, Matplotlib. Here's what I've done during DS labs:
https://github.com/MarcinChamera/intro-to-data-science-UJ

I'm a big fan of projects that require us to dig deeper, to the point where not too long ago the results would be beyond our imagination.

EMPLOYMENT HISTORY

.Net Developer , DataComplex   Krakow

Mar 2020 — Present

- Work in a small SCRUM team
- Tech Stack: .NET, C#, Visual Studio, Entity Framework Core, T-SQL, SQL, SQL Server, Microsoft SQL Server Management Studio, WPF, Git, Azure DevOps, LINQ
- Help to develop a desktop app for a big pharmacy client – designing models, implementing business logic, taking care of user interface
- Private calls with a client to receive feedback and plan future
  development plans for the app
- Preparing documentation etc. in Microsoft Word/Excel

EDUCATION

Bachelor's in Computer Science,   Kraków
Jagiellonian University

Oct 2018 — Present

Last semester, I have no classes left. I'm only writing my Bachelor's thesis during nonworking hours, so I can work full time.
